

Successful Domain Join

Description: Confirmation message indicating that the Windows 10 client has successfully joined the **olalab.local** domain.

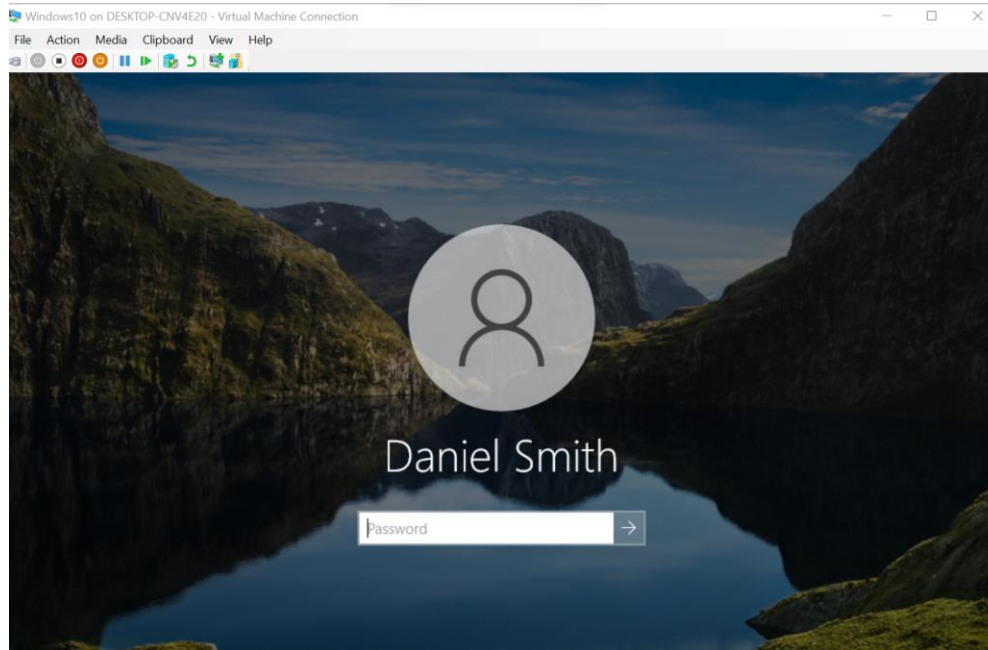

Domain User Login

Description: Windows 10 sign-in screen showing authentication with a domain user account.

Computer Object in Active Directory

Description: Active Directory Users and Computers displaying the Windows 10 client after it was successfully joined to the domain.

Group Policy Verification

Description: Command Prompt showing the successful execution of `gpresult /r` to verify that the Windows 10 client received Group Policy settings.

A screenshot of a Windows 10 Command Prompt window titled "Command Prompt" within the same virtual machine connection. The window shows the output of the command `C:\Users\Daniel_Smith>gpresult /r`. The output text is as follows:

```
C:\Users\Daniel_Smith>gpresult /r
